

## MOBILE GRID SUPPORT

ref. FREE-CAB-V

- Mobile easy-to-store cabling support. (Supplied without grid)
- On a bench, the work area (grids or panels) can be angled by the cabler simply by using the screw handles on the sides.
- The ball joints in contact with the table adjust automatically according to the work angle.
- The holding bars make the assembly very rigid for comfortable working.
- Adjustable horizontal rails for using grids with varied dimensions.
- This system also takes wood panels 12mm thick and BA13 plaster panel.
- Overall dimensions of the main frame: 1000 x 740mm
- Maximum dimensions of the work area: 800 x 720mm (panels or grids)
- Footprint on table in maximum open position: 750 x 530 mm

**Economical model with fixed grid**

- Mobile, lightweight and easy to store grid support.
- Supplied with a 550 x 750mm grid.
- Overall dimensions: 580 x 750mm.
- Maximum dimensions of the work area: 800 x 720mm (plates or grids).
- Space required on the table in maximum open position: 580 x 530 mm.
